

# Emergency Management

Whether it is Mother Nature or a human-caused disaster, Clatsop County Emergency Management is focused on preparing our communities for an emergency and securing resources to help them during critical times.

Clatsop County Emergency Management:

- Trains community members and local governments on how to work together when responding to an emergency situation
- Requests and coordinates state resources during an emergency
- Informs local community leaders about emerging concerns

Stay informed by signing up for **ClatsopAlerts!** We **only** will use this tool when there is a life-threatening emergency and we need to immediately notify residents. We test it once a year during the [Great Oregon Shakeout earthquake preparedness drill](#).
