What is a strategic plan?

Strategic Plans are **important tools** that are built from **public input** and help people **understand the County's vision** and the **direction it is taking and why**.

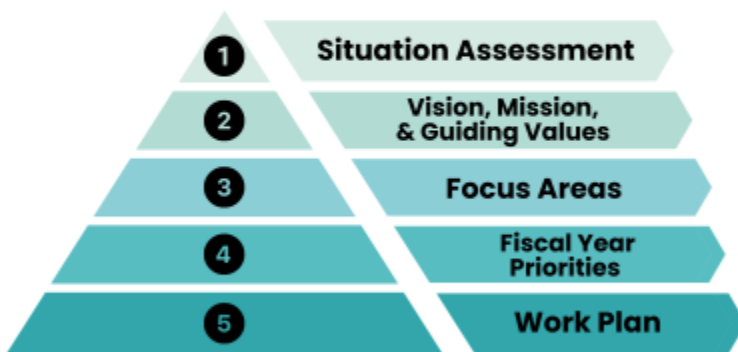

Our Journey

Clatsop County began its year-long strategic planning process in January 2020.

This **collaborative effort** engaged elected officials, staff, stakeholder groups, and the general public and was conducted in partnership with the [Center for Public Service](#) at Portland State University. The result is the County's **new Strategic Plan**, adopted by the County Board of Commissioners in January 2021.

In June 2022, the Board adopted the first **annual update to Strategic Plan 2021**, establishing **priorities for FY 22-23** (July 1, 2022 - June 30, 2023).

The most **recent update**, establishing **priorities for FY 23-24** (July 1, 2023 - June 30, 2024), was adopted by the Board in May 2023. See the section below ("FY 23-24 Priorities") for more information.

FY 23-24 Priorities

During our annual strategic planning process, the County Board of Commissioners establish new and/or continued priorities to carry out the County's mission in the upcoming fiscal year.

In May 2023, the Board adopted the **annual update to Strategic Plan 2021**, establishing **priorities for FY 23-24** (July 1, 2023 - June 30, 2024).
